## MEDIA STUDIES DEPARTMENT

Head of Department: Dr S Ellsmore

**Why choose the subject?** This course will enable students to develop their enjoyment and knowledge of all media texts including film, music, documentaries, newspapers, magazines, ICT and radio and television broadcasts. Through a variety of approaches, including producing media texts, it will allow students to develop a framework for the critical analysis of the meanings and contexts of all these texts.

Production work is a very important part of the course, encouraging students to put theory into practice by demonstrating knowledge and understanding of technical skills as well as allowing them to fully engage in creative, imaginative and aesthetic activity.

**Who is eligible?** Students who are interested in learning more about the role that the media play in our lives and willing to engage in critical analysis of all media forms and conventions. You will need to be willing to work in groups and to have an interest in media production.

**STUDENT VIEW**

**Media Studies**

Media Studies is an excellent subject to study at A level because the skills you learn are unique, yet applicable to everyday life. It's relevant to our day-to-day lives since we are surrounded by media texts, and this A level shows you how to analyse and critique them. Due to the practical elements of the course, we get to produce our own media texts whilst applying theories that we've learnt in order to create meaning in our work. This is especially valuable for students who want to pursue media at university. Even for those who aren't interested in further study of media, this course raises awareness of contemporary issues in the media industry and the ways in which texts are received by audiences.
